Education

Lovely Professional University

B.Tech in Computer Science and Engineering | [Link to all courses](#)

Graduated: May. 2023

CGPA: 7.1/10

Relevant Courses: Web Development Fundamentals, Data Structures and Algorithms, OOP (C++), Database Management Systems, Frontend Technologies, Software Engineering

Experience

LTIMindtree

Mar. 2023 - May . 2023

Graduate Engineer Trainee

HTML, CSS, Javascript, java, .NET, c(sharp), OOPS, PHP

- Engaged in a 3 month internship program, gaining expertise in programming languages such as ASP.NET, Java, JavaScript, and C(sharp).
- Successfully completed the internship with a commendable performance rating of 78 percent, establishing a strong technical foundation for future roles in software development and engineering
- Established a strong technical foundation, laying the groundwork for seamless transitions into subsequent roles in software development and engineering

STCO

Sep. 2023 - Present

Frontend Developer-Intern

React, Redux, Typescript, Git, API, Tailwind, Bootstrap

- Actively participating in the development and enhancement of frontend applications.
- Focused on honing skills in React.js to contribute to the improvement of user interfaces.
- Collaborating with experienced developers to gain hands-on experience in the field and support the growth of STCO's projects.
- Proactively staying abreast of industry trends and best practices, incorporating new knowledge into daily work to enhance overall development processes.

Projects

Spacex

Nov. 2023

Web app to display spacex rockets

React, Redux Toolkit, Tailwind CSS, PHP, MySQL, gsap, Git, API

- Developed an interactive web application using React and Redux to explore SpaceX rockets, featuring detailed information and captivating video backgrounds.
- Integrated a user-friendly interface with Tailwind CSS, providing a visually appealing and responsive design.
- Implemented user authentication functionality with PHP and MySQL, allowing users to securely register and log in.
- Users can explore rockets, filter results, and register or log in to personalize their experience

Weather App

Nov 2023

Real-Time Weather forecast App

React, Redux Toolkit, TypeScript, Bootstrap, API, Git

- Created a real-time weather forecasting web application using React, Redux Toolkit, TypeScript, and Bootstrap.
- Demonstrates proficiency in frontend technologies and responsive design for accurate and user-friendly weather forecasts.
- Integrated TypeScript for improved code integrity and maintainability.

File Transfer

Oct 2022

Password Protected file sharing app

Node.js, Express, Bcrypt

- Developed a password-protected file-sharing web application using Node.js and Express.js.
- Implemented secure password protection for enhanced user privacy.

Skills

Languages:

C++, Java, PHP, SQL, HTML, JavaScript

Technologies & Tools:

React, Redux Toolkit, Tailwind CSS, PHP, MySQL, gsap, Git, API, Node.js, UI/UX, DSA, Typescript, Bootstrap

Certifications:

DSA[GeeksforGeeks], ADMINISTRATIVE LEADERSHIP:[LPU], REACT FRONT END DEVELOPMENT: [UDEMY].
